Central Woodwork™

Family owned and operated since 1945

Central Woodwork is a family-owned and operated Tennessee company, established in 1945. From our locations in Collierville and Nashville, we offer a variety of windows, doors, mouldings, and related millwork products for residential and light commercial application.

Our roots are deep in the professional trade and we serve contractors in the Memphis and Nashville metropolitan areas, and also distribute competitively through a network of the area's best building supply companies operating within a few hours of our sites.

HOW TO CHOOSE YOUR DOOR

USE THESE SIMPLE STEPS TO CHOOSE YOUR DOOR

1

CHOOSE YOUR PANEL

Shown: Belleville. Mahogany Textured Fiberglass with Crosswalk glass

TEXTURED FIBERGLASS

Designed with the characteristics of real wood doors, but with superior durability and low maintenance. Textured fiberglass doors are ready for painting or staining.

Belleville. Mahogany Textured Fiberglass / BMT

Belleville. Oak Textured Fiberglass / BLT

VistaGrande. Fir Textured Fiberglass / VFT

Heritage. Fir Textured Fiberglass / HZT

SMOOTH FIBERGLASS

Smooth finish that's perfect for painting.

Belleville. Smooth Fiberglass / BLS

VistaGrande. Smooth Fiberglass / VSG

Heritage. Smooth Fiberglass / HZS

STEEL

Strong, secure and affordable in a variety of styles.

Masonite. Steel / MHD & MUS

FLUSH GLAZED

FLAT PANEL

ALL HERITAGE GLASS DOORS SHOWN USE THE **ZEEL FRAME**

Designed to be stained or painted, the ZEEL frame blends seamlessly into the entry door, allowing the doorglass to take center stage.

This clean, low-profile look offers an alternative to flush-glazed doors that provides the benefits of a frame system with the style homeowners desire.

ALL HERITAGE GLASS DOORS
SHOWN USE THE
ZEEL FRAME

Designed to be stained or painted,
the ZEEL frame blends seamlessly into the
entry door, allowing the doorglass
to take center stage.

This clean, low-profile look offers an
alternative to flush-glazed doors that
provides the benefits of a frame system
with the style homeowners desire.

**SCAN FOR FINISHING
INSTRUCTIONS
& PRODUCT DETAILS**

**ALL ZEEL FRAMES ARE
SHIPPED WHITE.**
MUST BE PAINTED OR STAINED.

EVOLVE FRAME WITH
FACTORY SDL'S
& SPACER BARS

ZEEL FRAME WITH
FACTORY SDL'S
& SPACER BARS

**ALL ZEEL FRAMES ARE
SHIPPED WHITE.**

MUST BE PAINTED OR STAINED.

ALL HERITAGE GLASS DOORS SHOWN USE THE **ZEEL FRAME**

Designed to be stained or painted, the ZEEL frame blends seamlessly into the entry door, allowing the doorglass to take center stage.

This clean, low-profile look offers an alternative to flush-glazed doors that provides the benefits of a frame system with the style homeowners desire.

HIGH PERFORMANCE DOOR COMPONENTS

FRAME SYSTEMS

SILL AND MULL SYSTEM (STANDARD)

Central Woodwork uses a large, 2" patented Primed Plus mull post standard on patio and sidelight units. This post features an upgraded primer coat, wax-dipped ends and a clear plastic spacer at the bottom to lift the end grain above any accumulating water.

Central Woodwork's operating panel threshold features Young Manufacturing's patented AA Top Drain Sill. This system redirects any potential leaks in the door, door bottom and/or weather strip through the storm channel drain within the threshold and outside the home. The solid one-piece hardwood base and adjustable cap is warranted against rot, so it will maintain its stability, rigidity and beauty for many years. Please don't caulk the weep holes!

FIXED PANEL UNITS

Central Woodwork builds all of our fixed panel units to exacting specifications so that they stay square and snug for increased stiffness and easier installation. All fixed panel openings feature specific threshold caps for correct positioning and neat appearance. The hardwood Oak adjustable threshold cap adds beauty to any entry system.

Primed Plus - U.S. Patent #6,161,343

AA Top Drain Sill - U.S. Patent #5,179,804

WARRANTIED ROT-PROOF DOOR FRAMES (UPGRADE)

Warrantied door frames are simply the best wood frames on the market. Backed by a fully-transferable lifetime warranty, a rot-proof frame combines the performance of composite and the strength of wood in one innovative solution.

ROT PROOF. BACKED FOR LIFE.

Our warrantied never absorbs water, rots, cracks or warps, and is backed by the industry's strongest warranty.

UNMATCHED WARRANTY.

Backed by a fully-transferable lifetime warranty for endless coverage and peace of mind.

LIKE WOOD, ONLY BETTER.

Composite bottom delivers superior protection from water, while finishing and painting just like wood.

PROVEN DURABILITY. ADDED STRENGTH.

Finger-jointed construction creates a perfect fit and enhances structural integrity of the frame.

PANOLOCK®+ MULTI-POINT LOCK

PanoLock®+ is the first and only multi-point lock that works with a variety of off-the-shelf hardware, including smart locks. That's affordable security + performance for every entry and patio door. An innovative system of adapters lets PanoLock®+ work with a wide variety of off-the-shelf hardware, including electronic deadbolts. Brands like Schlage®, Kwikset®, and more. A simple turn of the deadbolt operates both tapered bolts smoothly. The handle-set operates the handleset latch. Three points of secure contact. PanoLock+ is easy to live with, even after years of use.

ADAPTIVE® ADA SILLS

ADAPTIVE® isn't just a sill—it's a system with integrally designed components that combats performance issues by fighting leaks at their most common sources: (1) Beneath the sill, (2) at the weatherstrip channel, (3) Between the base of the jamb and the edge of the sill, and (4) over the sill. ADAPTIVE® inswing sills have achieved up to DP-35 water performance, becoming the first-ever water rated ADA-compliant sill system on the market. Adaptive outswing sills has a certified water rating and "no questions asked" ADA compliance.

ULTIMATE SLIDE BOLT ASTRAGAL

The Ultimate Slide Bolt Astragal combines the simple slide operation of Ultimate Lite Astragal with enhanced sealing power and security. Featuring an 18" auto-locking Flush Bolt and a Spring-loaded Astragal boot, the Slide Bolt Astragal protects your home from intruders and infiltration, while preventing damage and performance issues common with competitor systems.

ULTIMATE FLIP LEVER™ ASTRAGAL

The Ultimate Flip Lever Astragal combines enhanced performance with the benefits of enhanced accessibility and ease of use. Just one flip of the easy-to-use built-in lever activates the Floating Boot and Flush Bolt system, securing the unit with two lasting seals, even in imperfect or changing conditions. The Floating Boot and Flush Bolt deliver a perfect seal every time, operating independently of each other to seal against the lowest point on the sill when engaged, while lifting clear of the sill when retracted for lasting, damage-free operation.

ULTIMATE MULTI-POINT ASTRAGAL

Protect your home and eliminate traditional double-door performance challenges with the one of a kind Multi-Point Astragal. MPA delivers the sealing power of a multi-point lock without the multi-point price tag – multi-point functionality is built right into the astragal and even works with standard deadbolt packages for ultimate cost-efficiency. Plus, MPA automatically forms a custom seal against the sill cap, even if conditions aren't perfect, saving time and eliminating costly service calls. Beyond delivering improved performance, MPA is easy to use, providing enhanced accessibility for a product homeowners will love.

Practically perfect in every way — for paneled doors, that is. The Panel Pet Door Insert™ easily installs into paneled human doors to let your pet go outside for potty breaks on their own.

The size and style of this pet door allow you to use the Panel Pet Door Insert™ as a replacement dog door to cover up a preexisting cutout in your human door or hide a small cutting error (because accidents happen). This pet door also blends in nicely with your human panel door since you won't have to cut between panels to install the pet door.

With 2 different rise options, you can adjust the height of the pet door to fit your dog's size best. Meanwhile, the pet door's paintable surface lets you personalize it to match your style. The pet door material is weatherproof to withstand hot and cold temperatures without cracking. Magnets on the 2 flexible, replaceable vinyl flaps adjust for consistent closure preventing fewer drafts and weather from coming indoors.

When it's bedtime, and you want your dog to stay inside, use the snap-on closing panel as a dog door cover to keep your pet from going outside until morning. Your dog deserves the best pet door for their next backyard adventure. Trust PetSafe® to keep your pet healthy, safe and happy.

PET SAFE PET DOOR INSERT DOOR SIZING CHART

Pet Size	Flap Opening	Cut Out	Rise Options
Up to 100 pounds	10-1/8" x 16-1/2"	23" x 26-1/4"	8" or 10-1/2"

The Panel Pet Door Insert™ fits most 2' 8", 2' 10" and 3' 0" doors with basic 2-panel, 4-panel, 6-panel designs. You can also use this pet door with flat, metal, fiberglass, wood or glass top doors.
